May Showers Bring Flowers Baby Shower Event

State: Minnesota
Chapter: Duluth
Submitter: Daina Mirsch-Wenner
Project Type: COMMUNITY INVOLVEMENT - FUNDRAISING
Recipient: [Lake Superior Lifecare Center](#)

Description: A baby shower is a party of gift-giving that celebrates the delivery or expected birth of a child. This event was not celebrating a specific person, but the Lake Superior Lifecare Center, which is a local non-profit organization offering help to men and women facing unplanned pregnancies. Attendees of our baby shower helped us support this great organization in our community. We had games and refreshments, and attendees brought a baby picture (for one of the games) and an unwrapped gift, which we presented to the Lake Superior Lifecare Center.

The Lake Superior Lifecare Center offers hope and help to parents and families with services which are free and confidential, and share God's love throughout our communities. It was founded for the purpose of providing education and medical services, which are dedicated to the philosophy that every individual should have access to adequate health care, covering the physical, emotional and social needs from conception to natural death. The Lake Superior Life Care Center assists all persons regardless of sex, race, religion, age or economic status, especially women and families who find themselves in an unplanned pregnancy and those not able to afford medical-counseling attention due to lack of medical/health coverage. Services are available for anyone in Duluth/Superior and the surrounding areas. All services available at no cost.
